

3-Ply Surgical Mask

The level III, 3-ply face mask is produced in FDA certified facilities and protects your nose and mouth against splashes and sprays of blood and other bodily fluids, as well as bacteria and particulate matter of the sizes indicated in the table below. However, face masks do not provide respiratory protection against airborne diseases. For that purpose a respiratory mask (KN95/N95) is required

Specifications:

Part No.:	20200324-002
Case of 50 Part No.:	SS-AB3PL-50
Packaging:	50 Units per Box
Filter Material:	Polypropylene
Shell Material:	Polypropylene
Cover Web Material:	Polypropylene

- Level III Protection
- ASTM F1862 (Fluid Resistance): 80mmHg
- MIL-M-36954 C:ΔP (Breathability): < 4mm H₂O
- ASTM F2101: BFE (Filtration 3μm): ≥95%
- ASTM F2299: PFE (Filtration 1μm): >95% @ 0.1 micron
- 16 CFR Part 1610: Flame Spread (Flammability): Class 1
