

Nylon Grommets Straps (Qty.4)

Custom aluminum pole tips (Qty.8)

REVIEW PARTS AND OVERVIEW:

The GOZeebo Connector Kit is designed to provide an easy set-up of the GOZeebo multi-purpose tent. The Connector Kit comes with 8 aluminum Pole Tips, 4 Grommets Nylon Straps and this Instructions Sheet.

TIME REQUIRED:

We estimate approximately 5 minutes per corner, or 20 minutes total, to retrofit your GOZeebo.

TOOLS REQUIRED:

- Steel Center Punch
- Hammer
- Marker (Sharpie)

PARTS LIST:

PART NO.	QTY.	DESCRIPTION
20042-12	8	GOZEEBO POLE TIPS
20042-11	4	GOZEEBO STRAPS

NOTE:

Grommets straps come with 5 holes:

- Center hole is for mounting to existing steel ring on GOZeebo corners
- There are multiple holes on either side of center hole, for adjustability of pole tension.

CARE/MAINTENANCE AND WARRANTY:

The GOZeebo Connector Kit is designed to be a maintenance free product, to be installed once and used for the life of the GOZeebo.

Manufacturer warrants this product to be free from defects in workmanship and materials, under normal use and conditions, for a period of one (1) year from the original invoice date.

REPLACE CLIPS WITH STRAPS

1. At each GOZeebo corner you will see two steel spring clips, attached to a steel ring. Remove the clips and move to your junk drawer. Leave the steel retainer ring in place.

2. Attach a new grommeted strap to the steel ring, by feeding the center grommet through the ring. Repeat for each corner.

SECURE POLE TIPS TO POLES

3. Position a pole tip so the shoulder is aligned with the orange pole end.

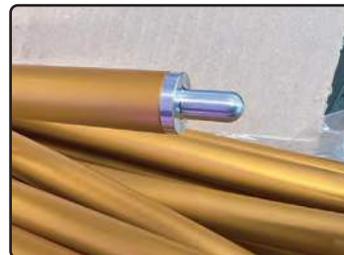

4. Using a Sharpie, mark a spot in line with the groove in the pole tip and insert pole tip.

5. Using a center punch and a hammer, tap an indent at the marked location, several times until pole tip is firmly seated.

6. Repeat the process for all of the orange pole ends.

ASSEMBLE POLE TIPS TO STRAPS

- Set up the GOZeebo using GOZeebo instructions.
- Bring pole tips down into outer holes of the grommeted strap, as shown below.
- It may be helpful to use your foot on straps, freeing both hands to guide the poles.
- Repeat this process at all four corners.
- There are multiple holes on either side of center hole, for adjustability of pole tension.
